😀 Chat with AI Assistant

Ask me anything about products and customer sentiment!

💡 **Example questions to try:**

🔍 Quality Analysis   💡 Design Feedback

Ask your question:

How are you doing?

💬 Ask AI

💬 Chat History

⌄   Q: How are you doing? (09:58:06)

AI Response:

I couldn't find relevant information to answer your question. Try asking about specific product features like 'battery life', 'design', 'quality', or 'value for money'.

⌄   Q: How do customers feel about the design? (09:57:53)

AI Response:

Most customers are positive (3/4 reviews positive). Good average rating of 4.0/5 stars. Regarding your question: design is well-received. Common themes: design, quality, beautiful Example review: "The design is beautiful and the functionality is top-notch. Highly recommend!"

⌄   Q: What do customers say about product quality? (09:57:51)

AI Response:

All customers are very positive about this. Good average rating of 4.0/5 stars. Common themes: product, average, nothing Example review: "Average product, nothing special. Does what it needs to do but could be better."
